

Clark Forklift Parts

Clark Forklift Parts - Presently, there are at least 350,000 Clark lift trucks performing globally, and in excess of 250,000 operating in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, duel fuel, gas, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 exclusive makes of lift trucks, with parts covering more than 120,000 specialized components for all of its automated equipment. Your regional Clark Seller is your complete source for availability of all your parts requirements supplied by Clark Totalift.

Clark's exceptional Parts Distribution Stores are conveniently situated in Louisville, Kentucky, which serves both their clients and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Motivated to offer the highest level of value and service to our users, Clark remains on the cutting edge when it comes to enhancing efficiency and benefiting performance.

Internationally, Clark has one of the most amazing supplier support networks. With over 550 locations worldwide, seller representation in over 80 nations and 230 locations in North America, their high level of commitment to their customers predominates the materials handling market.

Clark proudly remains an innovative leader of the material handling industry, revolutionizing protection features such as the operator restraint system. This exceptional dedication to safety is currently a customary feature on every forklift.

Clark's recurrent mission to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift maker across the globe to be certified with the internationally accepted quality standard ISO 9001 for all of their manufacturing facilities. Furthermore, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any environmental limitations, thus placing them in a prevailing market position.

Clark has chosen the structure of "Lean Production" at all of its assembly plants for the reason that this system is extremely economical and enables minimal use of resources. Established to ensure maximum efficiency, this system is intended to discover and acknowledge the most effective methods for production plant management. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers join together to perfect the efficiency and brilliance of their products while minimizing costs. The contemporary value engineering agenda combines modern product growth and provides improved customer support and service within the industry.
